

# Kyle Weekley

hello@kylerayw.com | 336.609.0078 | kylerayw.com

I am a computer technician and web designer who has been loyal to the same startup company since 2016. My role at Noctem has shaped me as a person and rounded out my professional skillset. I have combined my skills as a problem solver with my customer service abilities to excel in my career.

---

## Experience

MAR. 2016 - PRESENT

### Support Manager & Web Designer / Noctem Solutions, Greensboro, NC

Noctem Solutions is a growing MSP based in Greensboro, NC. I have worked with the CEO of this organization since 2016 to build this business and our offerings. In this role, I have truly become a jack of all trades. Each day is a new challenge in the field of project management, tech support, device management, marketing, web design, and much more.

MAY 2021 - PRESENT

### Freelance Web Designer

In addition to my job with Noctem Solutions, I have a successful business as a freelance web designer. I started on the Fiverr platform in mid-2021 and grew to a level 2 seller with over 100 5-star reviews. I specialize in WordPress web design, WordPress maintenance, and marketing consultation. I also have clients outside of the Fiverr platform that continue to work with me to reach their goals online.

---

## Education

JUNE 2013

### High School Degree / Morehead High School, Eden, NC

In high school, I found my love for computers and marketing, and I have spent all my time since graduation growing my skills and trying to further my career.

2014

### Some College / Rockingham CC, Wentworth, NC

I started college as an art student, hoping to become a graphic designer but I ended up going my own way and finding success as a technician and web designer.
